Drivers License ✓

Hi! I'm Bastiaan and I was born and raised in Amsterdam. I obtained a 'Bachelor of Arts' diploma by studying 'Game Design and Development' at the 'Hogeschool voor de Kunsten Utrecht'. Since then I have been undertaking the production of video games, UX design and product design. I enjoy teaching myself new tools and find the process of learning and creating things gratifying, because it gives me a great sense of personal development. I am an easy going person which enjoys hectic social environments and a lot of impulses. My personal interests include arts and crafts, hanging out with friends, fitness and trying to play the piano. I invite you to take a look at my website at [bastiaandeboer.com](http://bastiaandeboer.com) for more details about my skills and projects. Enjoy my resumé!
